- After the biscuits have been pressed out onto baking trays they can be covered and chilled, ready to bake the next day. Allow to sit out of the refrigerator for 10 minutes before baking as per the recipe.
- You can freeze these biscuits on a tray after shaping and pressing them out, once frozen solid, transfer them to an airtight container. Defrost before baking (around 20 minutes out of the freezer).
- They also freeze well after baking.
- Biscuits can be stored in an airtight container in a cool place for up 2 weeks.
