Alternative appliance method

Induction

- The rendang can be cooked on the induction cooktop.
- At step 3 for the rendang simmer the curry on low heat, induction setting 3, covered, for 2 hours. Remove the cover and increase the heat to medium heat, induction setting 5, and simmer for 30 minutes or until the moisture has mostly evaporated.
- Continue with the rest of the recipe as written.

Hints and tips

- Cooking curries in the combi steam Pro oven enables you to change different levels of humidity when needed. It's great to put the curry in the oven and never worry about it burning on the stove!
- Kerisik is used across Indonesian, Malaysian and Singaporean cooking. It's the secret to a rendang!
