Alternative appliance function

Dialog oven

1. Wrap the meat in a double layer of foil. Place the meat on a universal tray and place into the Dialog oven on shelf level 2.
2. Set the Dialog oven on M Chef + Fan Plus at 150°C + GU: Medium intensity (1450 units) + Crisp function OFF + Preheat OFF.
3. Once cooked, leave the meat in the foil for approximately 1 hour before shredding into bite sized pieces with 2 forks.

Hints and tips

- When using combi mode, you do not need to cover the pork. Moisture is added using steam, resulting in moist juicy pulled pork.
